Re: Clinton Hill Community Gardens

Dear Dr. Winters:

Pursuant to your conversations with Mildred E. Helms, president of the Board of Directors of the above corporation, this is to formally request that the New Jersey Institute of Technology recommend to my client, a non-profit corporation, the services of a Mechanical Engineer that might be able to advise them regarding problems of water proofing and sewer back-ups at their low and moderate income housing development in the Clinton Hill area. I would appreciate it if you would contact me or Mrs. Helms at 242-2218 at your earliest convenience in order that we might set up an interview or further discuss this matter prior to your recommendation.

Thank you for your courtesy and cooperation in this matter.

Very truly yours,

KORONA, BEIDES & EATON
